# Salaheddine Lafnouche

UX/UI DESIGNER

salaheddinelafnouche.com • portfolio@salaheddinelafnouche.com • +212 629335434 • Khemisset, Morocco

***Google-certified UX/UI designer*** *who turns user needs into clear, accessible interfaces. I define* ***personas***, ***user journeys***, *and* ***interaction scenarios***, *then design* ***wireframes*** *and* ***Figma prototypes*** *and test them with users. A programming background keeps mockups consistent with what development teams ship.*

## EXPERIENCE

02/2026 – Present

**Lead Product Designer (SaaS)** | YouScent Digital Perfume Atelier

*Two-sided atelier for memory-led formulas and perfumer briefs*

- Defined **personas** and **interaction scenarios** for a two-sided atelier where a memory and up to three archetype colors become an exact formula sealed with a **verification hash**.
- Storyboarded the perfumer journey so a brief can be claimed and blended by hand. Usability sessions on the compose flow reached a **94% task completion rate**.
- Designed plan interfaces from Freemium through Perfumery House, with **custom IFRA export** on the House plan. New accounts start with five complimentary credits.

11/2025 – 01/2026

**Product Designer** | YouScent

*AI Fragrance Discovery Platform (Consumer App)*

- Defined **personas** and **interaction scenarios** for a guided, prompt-based flow, replacing jargon with plain-language prompts and lifting first-time generation to **73%**.
- Mapped **user journeys** and **storyboards** from **6 group interviews** and **4 competitor audits**, pinpointing where selection broke down.
- Designed **wireframes** and **Figma prototypes**, ran usability tests, and folded feedback into the flow to reach an **81.4 SUS score**.

06/2025 – 10/2025

**Founder & Lead UX Designer** | Tech4U

*Adaptive EdTech Platform*

- Analysed shift-worker **needs and journeys** to address an **89% dropout rate** in rigid learning products.
- Designed **wireframes** and an adaptive interface **prototype** so users could scale density and pacing to their cognitive bandwidth.
- Built a **WCAG 2.1 AA design system** so visual and ergonomic rules stayed consistent across screens, with a projected **40% gain in learner retention**.

2021 – 2024

**Programming Instructor** | C.I.T • Kenitra

*Technical Education & Systems Training*

- Taught **programming logic**, **hardware concepts**, and **system workflows** to mixed cohorts across disciplines.
- Turned complex technical concepts into structured, **accessible learning paths**.

## EDUCATION & CERTIFICATION

2026

**Introduction to Artificial Intelligence (AI)** | IBM • Coursera

*Foundational AI concepts, neural networks, deep learning, machine learning algorithms, and real-world AI applications.*

2026

**Human-Computer Interaction Certificate** | BITS Pilani • Coursera

*Advanced* ***interaction paradigms***, ***user-centered design principles***, *and* ***cognitive psychology*** *applied to digital interfaces.*

2025

**Google UX Design Professional Certificate** | Google • Coursera

*End-to-end UX process:* ***user research***, ***personas***, ***user journeys***, ***wireframing***, ***prototyping***, ***usability testing***, *and* ***accessibility***.

2018 – 2021

**Diplôme en Informatique** | C.I.T • Kenitra

## SKILLS & METHODS

Methods: Personas, User Journeys, Storyboards, Interaction Scenarios, Wireframing, Prototyping, Usability Testing, Information Architecture, Design Systems, WCAG 2.1 AA, Multi-device Interfaces.

Tools: Figma, React, TypeScript, HTML5, CSS3, JavaScript, Git, VS Code.

Languages: Arabic (Native), English (Professional), French (Professional).
